## MINES AND MINING STOCKS.

# FINANCIAL AND COMMERCIAL.

### KEMPTON ORES AGAIN TIED UP

Colonel Wall Gets Injunction Against U. S. Company Reinstated.

KING CON. MINERAL QUARTZ

CON. MERCUR'S LATE STRIKE TURNING OUT BIG

nited States company has been min-g an average of about 100 tons of ore day of an estimated value of \$22.50 ton. This statement, coupled with estimates of experts that there i sposed in the disputed ground at the resent time approximately 750,000 tons ore of this character, worth more an \$16,500,000, shows the importance

agaist L. M. Lawson, et al., and the lecision was for the defendant. The Wall entered suit against the United being practically the same as that in the original suit against the owners of the Kempton, and an injunction was granted that restrained the United States company, from mining in the States company from mining in the tates company from mining in the pined. When the matter was decided by the circuit court an appeal was taken to the supreme court of the United States. That court not being in ssion at the time, the justice before urt and the dissolution of the injunc-

Wall's attorneys then went to the which, in everyday language, asks the ourt to issue a writ requiring the court to send up all the papers in case in order that it may be deterwith the circuit court's opinion.

riority rights under location and patent. In the Kempton case title to the ground was established by patent of a location that was younger than one claimed by the United States company covering a portion of the lode. The circuit court held that the older location was entitled to recognition, notwithstanding that the claim having been later located was first to obtain patent without protest from the owners of the older location.

The local settling price of lead was fixed by the American Smelting & Refining company at 85 per 100 pounds for this week and producers were yesterday correspondingly happy. This is an advance of 15 cents over the price which has prevailed for some little time past and is due to the great strength that the metal is showing in the New York market. a location that was younger than

In the Lavignino case, recently decided by the United States supreme court and involving an almost identical question, the court held that the first to patent held the title. For this and other reasons the Wall interests feel that they have won a decided victory in getting the United States supreme

MINERALIZED QUARTZ IS CUT.

#### Another Important Change in the Silver King Consolidated.

Another important change is taking onsolidated company's shaft at Park tho heard from the mine last evening. afterwards expressed his opinion of what it meant by saying: "We are

approaching the goal."

The message to Mr. Keetley was to the effect that the affernoon shift had broken through the lime and entered a body of gray quartz that was neavily mineralized and copper-stained. Whether a fissure has been en-Whether a fissure has been en-ountered or whether the body is a slip through the bedding planes from a ledge, it is yet too early to determine, as it was only last night that it was possible to begin hoisting and cleaning up the mass of material that had folowed the blasting. On that account Mr. Keetley will not go to the mine mtil tomorrow, it being his wish to get

For the last twenty-five feet the shaft. as been passing through alternating eds of blue and gray lime, all of which ias been more or less mineralized. stains, manganese, spar crystals nud all the features which characterize he limestones in which the great ore podies of the Silver King, Daly West and other mines of Park City make, are verywhere apparent and, as this is the lrst quartz struck, Superintendent Keetley declares that he could not fee nore sanguine of early results. nineral-bearing country without a loubt, and it is, in his judgment, simsty a matter of a little time till he car say he has a mine in fact.

UTAH'S COPPER DEALS.

How the Situation Is Sized Up at the

Here is the way the big deals that are being rounded out in Utah Copper and Boston Consolidated is sized up in Boston. The comment is from the Boston News Bureau and events of the past week how that everything is shaping up along he lines talked of:

"There is no longer any question that he buying movement in Boston Consolidated stock foreshadows a controlling inerest passing to the American Smelting Refining company, which has just actuired the Utah Copper company, an adoining property.

of the litigation and why every point in the legal battle is being so stubbornly contested.

The litigation originated in a suit brought by the United States company ignated at the mine as raise No. 132 gaist L. M. Lawson, et al., and the ecision was for the defendant. The united States company then appealed in the tremendously productive stopes o the circuit court. Following that the vanhoe Mining company and Colonel are being run out in it at three points

Wall's attorneys then went to the supreme court with a petition for a writ of certiorari. This is a petition which, in everyday language, asks the count to issue a writ requiring the that mine was closed down. The shaft mined whether there is anything that would warrant a reopening of the case. As stated, this petition was granted on that it became necessary to close down time all the ore mined will come from M.

SILVER AND LEAD ADVANCE.

Expected That Both Metals Will Hold Strong in the Future.

market and that it has deteranced to raise the price anyhow.
Silver also shot up the line yesterday to 63% cents per ounce. This is higher by quite a margin than this metal has been for a long time, and there is reason to believe that the top has not been reached yet. In addition to the heavy demand for the metal by foreign nowers, it is claimed that the United States government will soon have to invade the market for large quantities of silver for the purpose of supplying subsidiary coins.

With copper stronger than it has been for years, speaking from the standpoint of supply and demand; with lead in precisely the same position, and with silver gradually but surely heading for the 78-cent mark, at least, the future certainly looks good for the western miner.

AMERICAN MINING CONGRESS.

ure on Sunday Next.

Local Delegates Preparing for Depart-

Utah delegates to the America Mining congress, which convenes in El Paso next Tuesday, are making their plans and preparing papers that will be submitted at the meeting. Already four-teen reservations for sleeper accommodations have been filed with Harry S. Joseph and, by the time the train leaves next Saturday evening, it is expected there will be a full carload worked. It was learned during the day that the smelter smoke problem would be handled at the congress and that there was no doubt but what resolutions would be passed asking the government to take up the question and undertake its selution in a manner that will be advantageous to smelting and farming interests affice.

BOOMING IN ARIZONA.

Geological Survey Man Says Everything Is Humming.

Victor C. Heikes, in charge of the local forces of the geological survey, has returned from his long trip to Portland and the northwest and a menth's whirl into Arizona. Mr. Heikes states that Arizona is experiencing a boom in all lines. The mining districts are prospering as never before and the great anal enterprises that have been maugurated by the government are doing some rity under similar conditions to those evailing in Arizona and he feets that e, entire west is just entering upon era of growth that will add millions souls to its population.

Treasury Statement.

Washington, Nov. 6.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve, shows: Available cash balance, \$138,657,074; gold coin and bullion, \$78,273,500; gold certificates, \$49,780,850.

Metal Markets.

New York, Nov. 6.—The London tin market reported a sharp advance, with spot closing at £150 7s 6d and futures at £140 16s. The local market was steady with spot quoted at 33.156/33.20.

Copper was also higher in London, closing at £72 5s for spot and at £71 5s for for intures. Locally the market showed no material change, with the tone perhaps a shade steadier. Lake is quoted

Metal Markets.

Silver. 63% per ounce. Copper (casting), 15% per pound. Lead, in ore, \$3.50; New York, \$5.60 per 00 pounds.

Mining Notes. On account of the municipal election there will be no calls on the local mining exchange today.

The pendical The pending 4c assessment on New York Bonanza stock will be delinquent on Tuesday. Sale day is set for Dec.

Ore receipts at the Pioneer sampler yes-terday included three cars from Tintic, two from Alta, two from Bingham and one from Nevada. Six carloads of ore from Nevada, two from Bingham, one from Tintic, one from Idaho and one from Montana were reported at the Taylor & Brunton samp-ler yesterday.

ler yesterday.

Superintendent J. P. Turner of the Star Consolidated returned from the mine Sunday night for the purpose of attending the regular monthly meeting of the directors of the company and to be at home for election day.

One of the big ore lenses in the ledge of the Comstock company's property, at Park City, was opened Sunday night, and Superintendent James Hickey reports that he will have something good to talk about very soon.

The first assays that more constant of the property of the company of the comp

The first assays that were out on the initial shipment from the new strike on the 1,600-foot level of the Mammoth, secured vesterday afternoon, indicated that the lot would rin 2.72 ounces in 201d, or better than \$54 per ton. This is \$1 higher than was expected.

J. J. Chambers, president of the land

higher than was expected.

J. J. Chambers, president of the Intermountain Power company, returned from the east Sunday night prepared to continue vigorously the building of the plants his company has determined to install for the purpose of supplying electric power and light to this valley and the surrounding mining camps.

Chance McKendrick, who was sumplying the continuous continu

THE SILVER SHIELD MINING AND Milling company, principal place of businers Sait Lake City, Utah. Notice is hereby given that at a meeting of the board of directors of the above named company, held on the 18th day of October, 1905, assessment No. 15, of 3 cents per share, was levied on the capital stock of the corporation outstanding, payablo immediately to E. H. Mead, secretary, at 514 McCornick building, Salt Lake City, Utah. Any stock upon which this assessment may remain unpaid on Tuesday, Nov. 14, 1905, will be delinquent and advertised for sale at public aluction, and unless payment is made before will be sold on Thursday, Nov. 30, 1905, at 10 a. m., at the office of the assistant secretary, 514 McCornick building, Salt Lake City, Utah.

Dr. Cook's Certain Methods The Most Reliable, Quickest

and S ifest Ever Perfected. MY Skill has no equal in the cure of Pelvie and private diseases of men, because I have advanced with the rapid upward march of medical science, and made a specialty of the diseases I treat. My modern methods are every day proving that they are positively the safest, quickest and most reliable that have ever been perfected for curing

and most reliable that have ever been periected for curing BLOOD POISON, SKIN DISEASES, SORES, ULCERS, STRICTURE, VARICOCELE, NERVOUS DECLINE, PILES, FISTULA, RUPTURE, HYDROCELE and DISEASES of the KIDNEYS and PROSTATE.

There is absolutely no patchwork about the results of the course of treatment 1 give for each of the diseases I make a specialty, for soon after beginning my treatment every symptom of disease disappears and the trouble never returns.

There you for less money than you can be treated for the course of the course

IMPORTANT—I will cure you for less money than you can be treated forby any other specialist in Salt Lake. You will have to come to me sooner or later in order to be properly cured; why not before you have lost your money in doctoring with cheap, or dishonest, unskilled spec'alists?

CURE OR NO CHARGE—My patients receive a written contract, guaranteed by a deposit of \$500.00 in the bank, to cure and render entire satisfaction or refund money.

CONSULTATION FREE, CONFIDENTIAL and INVITED—A personal, thorough and searching examination is required, though if inconvenient to call, write me for information. Office hours: 3 a. m. to 8 p. m., excepting Sundays, from 9 to 12:30. Address or call
